

Report Format for Report "Nevada Statewide Voter List"

Your report will generate 2 "," delimited ASCII text file(s) compressed into one Zip file named in the format "VoterList.41521.<Today's Date>.zip". Any field capable of containing a non-numeric character (data types char, varchar, or datetime), will be enclosed in double quotes (") so that if the field contains your delimiter you may identify it as being contained within the field and not an actual delimiter. Any double quotes contained within these fields will be replaced by 2 consecutive double quotes (") so that the end of the field's data is not erroneously identified. Below you will find the format of each file:

1) Eligible Voters Results

File Name Format: "VoterList.ElgbVtr.41521.<Today's Date>.csv"

Field Name	Data Type	Sequence
VoterID (Primary Key)	int	1
County	varchar (50)	2
First Name	varchar (33)	3
Middle Name	varchar (31)	4
Last Name	varchar (33)	5
Suffix	varchar (10)	6
Birth Date	datetime	7
Registration Date	datetime	8
Address 1	varchar (100)	9

Address 2	varchar (100)	10	
City	varchar (50)	11	
State	varchar (2)	12	
Zip	varchar (12)	13	
Phone	varchar (24)	14	
Party	varchar (50)	15	
Congressional District	char (1)	16	
Senate District	varchar (50)	17	
Assembly District	varchar (25)	18	
Education District	varchar (25)	19	
Regent District	varchar (25)	20	

Registered Precinct	varchar (10)	21
County Status	varchar (20)	22
County Voter ID	varchar (12)	23
ID Required	char (1)	24

2) Voter History Results

File Name Format: "VoterList.VtHst.41521.<Today's Date>.csv"*

Field Name	Data Type	Sequence
VotingHistoryID (Primary Key)	int	1
VoterID (Foreign Key Ref Eligible Voters.VoterID)	int	2
Election Date	datetime	3
Vote Code	varchar (2)	4

Note: If you make any alterations to the report result columns or the report file type (i.e. CSV, FixedWidth, etc.), this file format will no longer be valid. Be sure to save this report file type before you exit the General tab.

*"<Today's Date>" will be the only variable in the file name that will change and ensure your file names will be unique each time the report is ran. This date will be the date the report is ran and will be in the format "MMddyyHHmmss".
